

# THE FRIDAY EXTRA

# 4/20/18

Life can get pretty rough. We have bad days, bad weeks, and sometimes we even label a whole year as bad. Sometimes we get caught up in life's troubles and fail to realize there's also a lot of good in life. Thanksgiving is not the only time we should be thankful. Many people forget we have things to be grateful for every single day. Often, the little moments in life can make us happy in the midst of the bad days. If we remember to be thankful for the little things every day, we will inevitably be happier. In every day, you can *always* find a reason to be grateful. Sometimes, these moments can turn our days around for the better, if we let them. By appreciating small moments, especially over time, we become happier because things are put into perspective. When you think about it, there is a lot to be thankful for, even if many of these are the little things. Remember to be thankful for the little things in life. They make life worthwhile and truly amazing. ([www.theodysseyonline.com](http://www.theodysseyonline.com)) "...give thanks in all circumstances; for this is God's will for you in Christ Jesus." 1 Thessalonians 5:18
